NORRIS ASKS PROBE OF RAILROAD DEAL

Calls on I. C. C. for Inquiry Into Believed Former Comptroller Proposed Bond Issue By New York Central.

(Continued from First Page.)

whing it could get a foothoid. In any event, the investigation is likely to call renewed attention to the need for legisment of railroad capitalization.

port of the Interstate Commerce Comnission severely criticising the financing of the New Haven and the investigation of the Frisco receivership, the investigation proposed by Senator Norris is certain to attract the widest attention in financial and railroad circles.

Judge Norris does not understand, nor does any one in Interstate Commerce Commission circles understand. debris. the reasons that underlie the efforts of the New York Central to saddle its properties with 4 per cent securities to replace long-time 31/2 per cents. That there will be a heavily increased interest charge, Judge Norris points out, is obvious.

Wants To Know Reason.

The Nebraska Senator calculates that the New York Central plans to impose on its properties in the next eighty-five years an additional interest burden of \$46,713,720 by substituting 4 per cent securities for 31/2 per cents. He wants to know why the public should be called on at this time to bear this additional James S. and W. S. Kuhn. When Mr. tax, and especially when the Eastern railroads are demanding a 5 per cent increase in freight rates, and are com-

plaining of inadequate revenues. "The efforts of the New York Central to issue these securities is peculiarly interesting right at this time," said Judge Norris today. "I cannot understand, nor can anyone that I have stand, nor can anyone that I have pected home not before Monday. At the offices of the United States Trust Comtalined to, why a road should be willing talked to, why a road should be willing to assume higher interest charges when it is asking for permission to raise freight rates 5 per cent. It should be lreight rates 5 per cent. It should be looked into. It is peculiarly interesting to me. It is a sample of numerous operations in railroad financing which receive little attention because the public eye is not fastened on them. I am in hopes the investigation will be ordered, and all of the facts brought to light."

Senator Norris' Resolution. The resolution of Senator Norris is as

follows: "Resolved, That the Interstate Commerce Commission be instructed to investigate, if it has not the information now in hand, and report to the Senate all the facts and circumstances conrected with the proposed issue by the New York Central and Hudson River railway of 4 per cent mortgage bonds for \$167,102,400 for the purpose of taking up outstanding 3½ per cent bonds now existing against said railroad and the took of the Lake Shore and Michigan

popular Subscription.

Improve the first propose of taking up outstanding 3½ per cent bonds now existing against said railroad and the stock of the Lake Shore and Michigan Céntral railways.

"That the commission be instructed to furnish the Senate with the date and amount of all said 3½ per cent mortage bonds, the reason for their issue, when they mature, whether the issuing of the said 4 per cent bonds for the said 3½ per cent bonds will not be an unwarranted and illegal capitalization of said railroads, whether the proposed consolidation of said railroads involved consolidation of said railroads invol of said railroads, whether the proposed consolidation of said railroads involved ssue of 4 per cent bonds would not be unwarranted and unlawful, and whather the increase of the issuing of said 4 per cent bonds is necessary, even though the consolidation of said railroads is unobjection-

Before New York Commission. The proposed flotation of securities

by the New York Central is one which now being considered by the New York public service commission. The company is seeking permission from that commission to make the big issue failure of the Walsh bank in Chicago, of 4 per cents alluded to. In financial where a Government investigator work-circles, the subject has been under discussion for some months.

About a year and a haif ago, the New

About a veer and a haif ago, the New York Central board, according to the facts in the possession of Judge Norris, took preliminary steps toward the reorganization of its fiscal affairs with a view to consolidating the Lake Shore road and the Michigan Central road with the New York Central property. It was proposed to consolidate the security issues, and recently application was made to the New York public service commission for authority to issue \$167.192.400 4 per ceent bonds in exchange ice commission for authority to issue \$167.192.400 4 per ceent bonds in exchange for the following bonds: \$19.336.000 col-lateral trust bonds at 3 per cent, se-cured by deposit of Michigan Central stock: \$99.578.400 collateral trust 34 per cent bonds, secured by a deposit of one-half that amount of Lake Shore stock; \$48,000,000 to be exchanged for 4 per cent Lake Shore debentures, and \$9.188,-000, to be exchanged for other Lake Shore debentures, bearing 4 per cent interest.

Will Run Until 1998.

The 31/2 per cent bonds to be called in and for which 4 per cents will be issued, if the New York Central has its way, were issued in 1898 for 100 years. For every \$500 of Lake Shore stock deposited \$1,000 of 31/2 per cent 490 to bonds were issued, and for every \$22 .-000 of Michigan Central stock \$23,000 of bonds were issued. The New York Central, as a result, controls the great of the stock of both roads. New, it is proposed to substitute 4 per-cent bonds which will run until Feb-

Yuary 1, 1998

Pointing out that the interest charge on the public in the aggregate will be increased over \$45,000,000 by the pro-posed operation, Judge Norris de-mands to know the reason for the substitution. He asks why it is necessary, when the 3½ per cents are already out and in the hands of the public, that the more burdensome 4's should be floated. In short, he looks on it as a strange, unexplained, and mysterious piece of financing, and he will insist the light be turned on. Judge Norris is the more insistent because authoritative statistical re-ports show that the New York Cen-tral fixed charges amount to 59.3 per ent of net income available for such payment, whereas like figures for the Pennsylvania are 29.8 per cent; for the Union Pacific, 26.5 per cent, and for the Burlington, 39.2 per cent—far lower than the New York Central And Roger Babson comments that the New York Central's charges are so high that the road ought to do some-thing to have them reduced. All these things, and more, Judge Norris pro-poses to lay before the Senate in connection with the demand for the in-

For Keeping Carrier Accounts.

EXPECT MURRAY TO

Will Answer Criticism in Pittsburgh Bank Case.

Friends of Lawrence O. Murray, form er Comptroller of the Currency, are waiting with impatience his return to Washington, when they expect him to reply to the statement of Secretary of the Treasury McAdoo that the failure of the First-Second National Bank of Pittsburgh is "a bequest of the last Administration.

At the Treasury Department today there was open criticism of Mr. Murray for having permitted the consolidation of the First and Second National Banks of Pitsburgh. One of these banks, it is admitted, was small and strong, the other larger but a good deal weaker. The two together have smashed, and the Government is now overhauling the debrie. Mr. Murray, the record shows, kept a

vigilant eye on the bank after he had permitted the consolidation. He compelled the First-Second to write a million dollars worth of bonds off its list of assets, and thereby appered greatly his former intimate friend, Oscar O. Telling, vice president of the First-Second Bank, and former Treasury employe. Telling, who stepped from a \$2,000 job here to a \$25,000 place at Pittsburgh, was clerk in the mint at Denver befere he came here to a clerkship in the Comptroller's office.

Tawney May Be President.

Mr. Murray made Telling chief of di-Telling grew violently angry at his for-mer superior at that time, and that the breach has never been healed. Mr. Murray is now somewhere in New

pany, of which Mr. Murray is now president, Elbridge T. Jordan, former president and now chairman of the executive board, said today;
"Mr. Murray may have something to

say. At all events, he will wish to speak for himself, and not to have others speak for him." It was announced today at the Treas-ury Department that Charles O. Tawney, acting manager and cashier of the First National of McKeesport, probably will be elected president when the directors get the resignation of James S. Kuhn, which is expected. Reopening of this bank is contingent upon Kuhn's resign-ing, it is stated at the Treasury.

Federal Inquiry Delayed.

The Government's concern with the First-Second Bank now is a double one. Criminal prosecutions will be undertaken, and simultaneously the Government will try to force restitution of the money loaned the Kuhn subsidiary com-

seneral's department takes hold of the situation with a view to starting criminal prosecutions. Mr. Brown has been eminently successful in undertaking the legal clearing up of complicated banking situations.

Attorney General McReynolds to lay declared that while not informed in de

WASHINGTON AND NEW YORK FINANCIAL NEWS

REPLY TO M'ADOO STRONG DEMAND FOR

Buying Orders for Stock Cause Scramble on the Local Exchange Today.

There was wild scramble for Washington Gas, both on and after call on the local exchange today. Much stock was taken at 88%, and 89% was engaged for a sixty-day option on 100 shares. Nearly every broker on the floor seemed to have buying orders, and there was greater activity than has been seen on the exchange this year. A total of 440 shares were traded in

addition to the 100-share option. Only one quotation lot sold at 88%, and only sixty-five shares were obtained at 88%. The high price was paid for the bal-There was support evident on the floor for Capital Traction and no attempt was made to liquidate any of this stock. The quotations weer strengthened and two small lots of the stock sold at

Twenty-five shares of Washington Railway common sold at 89 and another quotation lot at a % advance. Five shares of the preferred sold at 88. The 4 per ceat bonds were stronger today, \$2,000 eslling at \$2%. Capital Traction 5's sold at 109; Po-tomac Consolidated 5's sold at par again, and \$500 of Steamboat 5's sold

vision reports, and as such he went to Pittsburgh and became acquainted with James S. and W. S. Kuhn. When Mr. Murray declined the presidency of the bank they made Telling vice president. Telling had not been in his new place very long when Murray ordered the million dollars written off. It is said that Telling grew violently angry at his former superior at that time, and that the ing the decline in that issue. So far as this feature is concerned it is as-serted that the Aldrich measure was
